## WASHINGTON CITY.

### Severe Strictures on Sherman's Conduct.

NEW YORK, Feb 6—A Washington correspondent of the *Commercial Bulletin* here states that Senator Jones alleges that the reason given him by Secretary Sherman for wanting to abolish the Carson mint was that silver was wanted in the east in manufactures. Jones urged the duty of the secretary to coin silver as convenient and issue certificates against it, dollar for dollar. It is claimed that we can use it freely in the shape of certificates without doing violence to any imaginary international money standard and there's no excuse for Sherman not embracing the present opportunity to issue silver certificates.

### Robeson's Naval Administration.

WASHINGTON Feb 6—The house committee on naval appropriations has adopted a report prepared by Mr Whitthorne on the Robeson investigation. The report is very much modified since originally drawn. It will be signed by the Democratic members, and the Republican members will sign a minority report.

### A Report Relating to Railroad Grants.

WASHINGTON Feb 6—The senate committee on railroads to-day authorized Dawes to report for passage without material amendment Plumb's joint resolution providing that 50 per cent of charges of land grants to railroads for government transportation be paid them. The joint resolution proposes to establish 50 per cent as a reasonable reduction provided by the supreme court decision on account of stipulation in favor of the government until the matter is otherwise settled by judicial determination.

### The St. Martin Affidavit.

WASHINGTON, Feb 6—Before the Potter committee to-day Maddox testified in relation to the St Martin affidavit that every charge embraced therein upon which witness was questioned, was denied especially that referring to Maddox as having offered St. Martin money to return home.

### Favorable Report on the Oregon Wagon Road Company's Claim.

WASHINGTON, Feb 6—The senate public lands committee have unanimously agreed to recommend the passage of the bill authorizing the issuance of scrip locatable on lands in Oregon to indemnify the owners of the Oregon Military Road grant for that portion of their grant which after being duly listed to them, and sold to them by third parties, was taken possession of by the government and used ever since as a part of the Klamath Indian reservation. The committee are satisfied by record evidence that the Wagon Road Company's title to these lands is perfect, and that they are entitled to possession and compensation but in view of a mass of official correspondence on the subject, including letters from the governors of Oregon and California in which it is shown that any attempt to remove the Indians would be extremely dangerous, the committee recommend that the company's proposition to accept indemnity scrip in lieu of the choice lands thus occupied should be complied with as the most feasible means of adjusting the claim without threatening the public peace.

### Official Nominations.

The president has nominated Decius S. Wade for chief justice of the supreme court of Montana and J B Allen for U S attorney of Washington territory.

### The Army Bill

WASHINGTON Feb 6—The house in committee of the whole has adopted 101 to 91 the amendment offered yesterday by Whyte comprising most of the features of the army reorganization bill.

## THE RESTRICTION BILL.

### Its Early Consideration by the Senate Expected—Prominent Coast Senators to Speak in its Favor.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Feb 6—The *Times'* Washington correspondent says that an effort will be made by Pacific coast senators to secure an early report on the house bill restricting Chinese immigration or to obtain a discharge from further consideration of the committee on foreign relations to which the measure was referred. Sargent will lead off in this and it is understood that other Republican senators of that section will certainly put themselves on record upon this measure. [illegible] will make an elaborate argument [illegible] the ground that the [illegible] must be prohibited [illegible] conditions and therefore [illegible] to the preamble of the constitution which declares the government [illegible] general welfare [illegible] has been called to the fact that [illegible] constitutional convention [illegible] section [illegible] rights, speaking of [illegible] has been [illegible] government and [illegible] a bitter degree of sectional hostility [illegible] reference to [illegible]

## PELTON TESTIFIES.

### Sammy's Nephew before the Potter Sub-Committee at New York.

### Like our Late Lamented Chum His Memory is Defective

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Feb 6.—Col Pelton was to-day before the congressional committee investigating the cipher dispatches.

Question: Can you remember any of the names with whom you corresponded or have you destroyed our cipher key? Answer: I have not. I cannot now remember the names of any persons with whom I conferred. All telegrams sent by Weed were by my instructions addressed to Havemeyer, who at once sent them to me after they were presented to the committee at the Everett house.

Q. Who opened these dispatches in your absence? A. The national Democratic committee.

The chairman called attention to the dispatch dated Tallahassee Nov 16 and signed, in translation, "Marble." The dispatch stated that the canvassing board may and will purge the county returns and our first move will be to require of the board—three state officers one being an able Democrat—immediate action.

Colonel Pelton—I might as well state here that I cannot remember anything about these dispatches. There is no question but that the *Tribune* dispatches get near to the point yet they are inaccurate. I always understood that Wooley and Fox were one and the same person. Give me a little more latitude and I will testify fully.

Witness did not remember whether or not he used the word "Denmark" as his signature.

Mr Springer of the committee said that several dispatches from Florida signed "Lax," sent by Coyle in reference to money matters, were explained by the memorandum of expenses of the Democratic national committee submitted by Mayor Cooper.

Witness said that he had an idea that the returning board propositions even if not carried out, would result if assented to in a delay which would be favorable to the Democratic party. He had made no arrangements for raising money but intended eventually to lay the matter before the national Democratic committee and let it decide. In the meanwhile he thought it best to commit to the members of the returning board the propositions in question. He acted wholly on his own responsibility without consultation with any other. He held no authority to act for the Democratic national committee in the matter.

### President Grevy's Platform.

VERSAILLES, Feb 6—President Grevy's message says:

I do not remain below the level of what France has a right to expect from my efforts and devotion. Sincerely submissive to the great law of parliamentary government I shall never enter into conflict with the national will conveyed through the constitutional organs. In the bills which it will submit to vote of the chambers, the government will be guided by real wants and unmistakable wishes of the country. Now that two great powers of state are animated by one spirit which is the same that actuates France, the government while taking account of its rights acquired and services rendered will take care that the republic is served by functionaries who are neither its enemies nor its detractors.

## MR.(?) WILLIAM CHAMBERS

Readers of THE OREGONIAN will no doubt remember a man known as Bill Chambers whose operations in burglarizing in and about Portland some three years ago won him considerable local fame and finally got him a comfortable situation under the Farish administration in the penitentiary at Salem. He was a gentleman of a good deal of enterprise and adroitness and managed to victimize a number of people, among them Mr S G Reed, Mr Wm Reed, Mr Chas Logie, Mr Lappeus, before he was caught. He was caught and sent to Salem for a term of three years. By pious arts he succeeded in working up the sympathy of influential persons, prominent among them one of his victims named above, and a few months ago was pardoned by the governor. After his release he spent some time in this city bumming a living from the very sympathetic gentlemen through whose appeal he was made free and finally, on a small capital raised by the contributions, started out again, with noble promises to battle with the world. He is again at his old game and again is in the clutches of the law. This time Marysville has him in hand. Glynn is the name under which he sails.

A recent number of the Marysville *Appeal* contains a long account of a burglary perpetrated by Chambers alias Glynn in a grocery store. He was arrested and made a full confession of his guilt. This fellow of numerous aliases is booked for a good term San Quentin this time and it is to be hoped that he will not be pardoned out as he was in this state.

### Senator Conkling's Usurpation.

From the Boston Advertiser

It cannot long escape the attention of the country that the position taken by Senator Conkling is a usurpation of functions which do not properly belong to a senator and which cannot be wrested from the executive without peril to the security of our form of government. The senate in tolerating such an assumption of power is committing a grave wrong the results of which it [illegible] will be serious. It virtually amounts [illegible] that Mr Conkling [illegible] chosen senator from New York [illegible] with the power and importance [illegible] president of the United States [illegible] the administration [illegible] New York state.

## EDMUNDS' RESOLUTIONS.

### Passage of the Resolutions Declaring the Validity and Force of the Thirteenth, Fourteenth and Fifteenth Constitutional Amendments.

### Proceedings Prior to the Final Vote

### Sharp Criticism on Edmunds and the Judiciary Committee by Senator Beck

[BY TELEGRAPH TO THE OREGONIAN.]

WASHINGTON Feb 6—At an evening session of the senate held last evening Edmunds submitted an amendment to the substitute of Morgan that the right of the people to peaceably assemble for the purpose of petitioning congress for redress of grievances or for anything else connected with the powers and duties of the national government is an attribute of national citizenship and as such is under the protection of and guaranteed by the United States and within the scope of the United States to protect them by penal laws.

Morgan moved to adjourn but a quorum not voting a call of the senate was ordered and 41 senators responded.

Beck referred to the bills to repeal the test oath and to repeal the law keeping young men out of positions under the government who served under the confederacy etc and said that the judiciary committee had held back important messages and instead of considering them wasted time on these resolutions. The senator from Vermont brought forward these resolutions to keep alive bitter feelings which were dying out and would have been dead long ago had it not been for a few men keeping them alive. There was one consolation—in less than thirty days this congress would expire and that judiciary committee would be dissolved and other and fairer men would have it. He wanted every man to stand equal before the law. Let the judiciary committee report the bills before them, and not bring forward political conundrums to divide and distract the people.

Edmunds made a sarcastic rejoinder.

Merrimon submitted the following as an amendment: "That the several states are co-equal and in all respects are on an equal footing in the union, and that every citizen is entitled and eligible to a share in all the rights and protection for life, liberty and property, in filling all the offices, places of honor, trust and profit except in cases expressly excepted, and all benefits and advantages under the constitution of the United States unless because of crime whereof he shall have been duly convicted, and all laws and clauses of laws abridging such rights or discriminating against any citizen or class of citizens by the test oath or otherwise contravening the spirit of the constitution, are unwise and ought to be abolished."

The vote being taken on Merrimon's amendment resulted yeas 7 nays 29, no quorum voting. A call of the senate was ordered and 44 senators responded. The vote was again taken and the amendment of Merrimon was rejected yeas 11 nays 30.

The question then recurred on the amendment of Edmunds. It was agreed to yeas 25 nays 15.

The question then recurred on the substitute of Morgan as amended by Edmunds and it was rejected ayes 14, nays 26.

Voorhees said that he voted for the amendment of the senator from Arkansas because it expressed his views. He knew that the constitutional amendments were not legally ratified by his own state, (Indiana) but there was a ratification that came by use and acceptance which neither he nor the people of that state desired to disturb.

The question then being on the resolutions as submitted by Edmunds he demanded a separate vote on each resolution. The first one was agreed to by a vote of yeas 23 nays, 17. The second resolution was agreed to by a similar vote. As agreed to the resolutions read:

*Resolved*, That in the judgment of the senate the 13th, 14th and 15th amendments of the constitution of the United States have been legally ratified and are as valid and of the same paramount authority as any other part of the constitution; the people of each state have a common interest in the enforcement of the whole constitution in every state in the union and that it is alike the right and the duty of congress to enforce said amendments and to protect every citizen in the exercise of rights secured by the laws of a general character already passed for that purpose and by further appropriate legislation so far as such enforcement and legislation are not secured by existing law, and that it is the duty of the executive department of the government to faithfully and with diligence carry all such laws into impartial execution and of congress to appropriate all moneys needed for that end.

*Resolved further*, That it is the duty of congress to provide by law for the full and impartial protection of all citizens of the United States duly qualified in right to vote for representatives in congress and to this end the committee on judiciary be and is hereby instructed to prepare and report as soon as may be a bill for the protection of such rights and punishment of infractions thereof.

On motion of Edmunds the senate took up house joint resolution proposing an amendment to the constitution prohibiting the payment of the claims of disloyal persons for property injured or destroyed in the late war of the rebellion so that it would be unfinished business to-morrow. Senate then at 11 P M adjourned.

At all elections for school officers women who pay a property tax are legal voters and are eligible to any office under the school system in Washington territory.

There were but 46 marriage licenses issued in King county W T last year against 61 in 1877. Either the women in that locality are getting better able to take care of themselves or the men are getting less competent to take care of them.

At the suggestion of their agent Mr Willoughby the Indians at Neah bay have organized a government and elected four chiefs or judges to whom all disputes are referred, appeal in case of disagreement to be taken before the agent. One of the chiefs thus elected was chosen by the board as its presiding officer or head chief and, there being Indian boys on the reservation who could read and write in English, one of them was chosen as clerk of the court. On the evening after the election the newly constituted board had occasion to hold a business meeting to settle some trivial disputes among their red brethren and upon an appeal to Agent Willoughby the action of the lower court was sustained.

### The S. F. Odd Fellows Bank in Liquidation

SAN FRANCISCO Feb 6—The stockholders of the Odd Fellows bank held a meeting last evening, Moses Heller, president, presiding. It was voted unanimously to put the bank into liquidation for the reason that it was impossible for it to pay the semi-annual dividend now overdue and that the bank commissioners had decided that they could not legally pass it. A vote of confidence in the officers and directors was also passed unanimously and it was resolved to entrust them with the work of liquidation. After the adjournment of the stockholders meeting the directors met and resolved to at once take steps to convert the assets into cash as speedily as the interests of the concern admit and make apportionment to depositors as rapidly as possible. In the course of the stockholders meeting the bank commissioners were severely scored for their conduct in connection with the affairs of the bank.

### Whisky's Work.

ELKO Feb 6—A terrible tragedy occurred yesterday evening at a wood camp near Moore's station about four miles from Humboldt Wells. Two men procured a gallon of whisky at Wells and returned with it to the camp. They got drunk and went to the cabin of a wood chopper threatening his life, opened the door and shot at the man with a rifle and a revolver. The man seized an axe and resisted the attack cutting each of his assailants severely. The assailants were arrested by Deputy Sheriff Chase who started to Elko with them. One of them died on the train and the other is now lying in the hospital here in a critical condition and cannot survive. The party attacked is generally exonerated by those familiar with the circumstances of the case.

## LITERARY NOTES

Prof Tyndall in the *Nineteenth Century*, treating of science and revelation, says: "Profoundly interesting, and indeed pathetic to me are the attempts of the opening mind of man to appease the hunger to know the cause. But the Book of Genesis has no voice in scientific questions. It is a poem, not a scientific treatise. In the former aspect it is forever beautiful; in the latter it has been and will continue to be purely obstructive and hurtful."

Porter & Coates, Philadelphia will publish, about the middle of the present year, the third volume of the Comte de Paris' *History of the Civil War*. It will contain without abridgement the fifth and sixth volumes of the French edition and will embrace the account of the battles of Gettysburg, Vicksburg, Port Hudson and other events of the war to Jan 1 1864. The fourth volume, completing the work, is expected during the year.

Prof Boyesen's book on Goethe and Schiller has had the benefit of the late Bayard Taylor's suggestions and it is said to give in general the latest results of German scholarship. Works as late as Grimm's last year's *Lectures on Goethe* have been drawn upon for material. The review of Goethe's life and work takes in all that long biographical research has furnished as to facts and the essay on Schiller is said to be hardly less minute than that on Schiller's friend and master.

We acknowledge the receipt from Scribner & Co, publishers of *Scribner's Monthly* and *St Nicholas*, of a volume of "Spiritual Songs" selected and arranged by Rev Charles S. Robinson D D. The psalms and hymns are divided among various departments such as for the Lord's day, the house of prayer, the sacraments, of praise, &c, and are governed by two indexes of subjects and of first lines of hymns as well as by an index of tunes or authors and of meters. There is also an index of first lines of stanzas [illegible] Another still refers to scripture text. The music for church and choir is printed with the text at the fixed point at the page. Clear large type and sober binding add to the attractions of this devotional volume.

Mr H S King of the firm of King & Co, Cornhill, London, died last month leaving $800,000. He succeeded the celebrated bookselling house of Smith Elder & Co in a part of their business including the old stand in Cornhill. This firm, who it will be remembered were the first to recognize the superlative merits of Currer Bell, formed also close relations with Thackeray and became the publishers of the *Cornhill Magazine* when it adventured under his editorship. Subsequently Mr Smith determined to start the *Pall Mall Gazette*, taking its name from Arthur Pendennis' paper. Among its leading contributors was Thackeray's [illegible] of Big Higgins—better known as Jacob Omnium from his letters to the *Times* under that signature—a familiar figure to all Londoners of 50 and upward.

Bailey moved to postpone the pending and all prior orders [illegible] consideration of the bill for the relief of book agent of the Methodist Church South. Rejected, McDonald, Voorhees and Davis of Illinois voting with the Republicans in the negative.

At request of his colleague (Morrill) Edmunds consented that the unfinished business should be laid aside informally and the bill to provide for taking the tenth and subsequent censuses was taken up.

Morrill explained the bill.

Kernan offered an amendment that the superintendent and supervisors shall take an oath for the faithful discharge of their duties. Agreed to.

Conkling submitted an amendment that each subdivision shall contain not less than three thousand inhabitants where the last preceding census shows the inhabitants thereof. Agreed to and the bill passed, yeas 46, nays 4, being Cameron of Pa, Mitchell, Spencer and Teller.

### House

Hayes introduced a bill for $[illegible],000 to improve the Illinois river. Referred.

Cummings introduced a resolution asking for a statement from the commissioner of pensions regarding the amount required to pay the arrearages of pensions. Adopted.

Eden—chairman of the committee on war claims, reported back a bill making an appropriation for payment of claims reported by the commissioners of claims but declined to [illegible] amendment that no war claim shall hereafter be paid to anybody. The bill then passed.

The house went into committee of the whole on the army appropriation bill.

Bebee's amendment authorizing the president to appoint George Foster Robinson paymaster of the army was rejected.

Garfield opposed Whyte's amendment which comprises the main features of the army organization bill as it was improper to add it to the appropriation bill.

Ewing supported the amendment as improving the army and saving millions of dollars at once and gradually three or four millions.

Fort opposed it.

Banning, who as chairman of the committee on appropriations had reduced the number of the army, could not now complain of the reduction of officers.

Garfield asked Whyte what the bill meant by saying that general officers must be elected from the army.

Whyte—Just what it says.

Garfield—That will include Washington.

Whyte—Washington is in heaven.

Garfield—And Grant?

Whyte—Mr Grant will be the next president probably.

A vote was then taken on Whyte's amendment. Agreed to: Ayes 101, nays 91.

Whitthorne made a point of order on the section allowing every officer who has been thirty years in the service to be placed on the retired list by application. The point was sustained and the section stricken out; also the section providing for the resignation of officers prior to January 1880 with three years pay.

On motion of Hewitt the provision of the revised statutes was expunged which permits the army to be at the polls on election day to keep the peace. Vote 93 to 80.

Bruce submitted an amendment for the transfer of the Indian bureau to the war department.

Garfield said the system of tacking everything on the appropriation bills was making all other committees superfluous. The house had here totally revolutionized the army and restricted all modes of appointments and it was now proposed to cut one of the great departments of the government and say it was in order because some technical words declared it economy. The house had never done a more fatal thing to its business than when it passed rule 120. If this amendment were ruled in order the house could abolish all departments of the government or break down the jury system or work revolution by a vote and it would be in order. He hoped that the chairman of that committee would rule upon this as a matter of discretion and patriotism and prevent a flood of business being poured upon the appropriation committee which would ere long break down that committee and array against it every other committee of the house. The time would [illegible] when the other committees would see their business taken out of their hands. He did not think that the committee on appropriations desired it. It was simply made the committee of all sorts of [illegible] but if it did, the result would be to make the usurper of all the authority of the house.

Banning said that rule 120 has saved $20,000,000 to the country in three years and was adopted to prevent extravagance and encourage economy.

Garfield said that this would enlarge expenses by [illegible] new machinery.

A [illegible] arose between the [illegible] in which each accused the other of his opposition [illegible] want of economy.

Cox said that nobody expected the speaker to decide in favor of the Republicans on this question.

The chair overruled Garfield's point and declared the amendment in order.

Egbert offered as a substitute an amendment authorizing the president to transfer the care and control of any tribes to the war department whenever he deemed it advisable, either on account of hostile action on their part against the United States or in case of any difficulties arising [illegible] them and settlers.

Bales raised a point of order and during the discussion the house adjourned.

## A GOOD LOCALITY

CARTWRIGHT Lane Co Feb 3 1879.

TO THE EDITOR OF THE OREGONIAN

This settlement lies on the western slope of the Cascade mountains and just north of the Calapooia range, the latter connecting the Cascade mountains with the Coast range, and is distant from the Oregon and California railroad from six to twelve miles. The older [illegible] to natural prairies but of late the settlements are extending into the open timber and brush land where there is found a superior soil well adapted for the production of grain, fruit, vegetables and the tame grasses. The lands from here westward to the ocean, a distance of 40 miles, are nearly all unoccupied and are capable of furnishing thousands of families with good homes.

Our people during the late rise in the streams had great sport and profit in catching salmon that ascended the streams and brooks from the ocean by thousands.

During the past three years there has been but one death in this neighborhood and that was not from any cause that could be laid to the country, and no sickness of a serious nature, thanks to our pure water and healthy climate.

We have no saloon and don't intend to have, hence we have no drunkenness, but we have a Good Templar organization in successful operation and Sunday school during the summer months.

Last Saturday evening a Blue Ribbon Club was organized here with the following officers: William [illegible] president; William [illegible] secretary.

### The Truth about Louisiana

[Cleveland Herald (Rep.)]

The letters of Mr J. W. Smalley to the New York *Tribune* are exciting unusual attention from the northern press. Mr Smalley has since his present visit to the south become convinced that the views he formerly entertained of the outrages said to be practiced upon the Republicans of the south were incorrect and that the grave charges made by Mr Blaine and other prominent leaders of the Republican party against the Democrats of a portion of the southern states are absolutely correct in letter and detail. Nobody can doubt, in view of the ugly facts Mr Smalley vouches for, that murder, fraud, violence and brutality were matters of systematic and frequent occurrence in Louisiana, done solely in the interest of the Democratic party.

### The Grant Movement.

[From the Boston Journal.]

A Republican was recently asked about the Grant movement and replied that he had been unable to find any one among his acquaintances in favor of his nomination for the presidency in 1880, but many of them said that they thought others were advocating it. He had not been able to find the others who were thought to favor the movement. He seems to have defined that movement very accurately so far as this locality is concerned.

FRIDAY MORNING FEB 1879

*GROVER CHADWICK AND CANN*

Though Mr Chadwick did not explain anything and studiously framed his answers to avoid the questions directly put by the committee he succeeded in showing with sufficient clearness that the affairs with which he had to do were shamefully mismanaged His testimony so called is a much more complete exposure of official delinquency than might at first appear on the mere face of his equivocations It is apparent that in all the matters of business in relation to which he was catechised there was no fidelity whatever on the part of the officers to the interests of the state In land matters speculators had it all their own way They got leave to file their applications and received certificates of payments thereon without paying a cent and Chadwick when forced into a corner was obliged to admit that this was done upon a rule or order made by the board Yet Mr Grover who was a member of the board rises in the senate to an explanation In the course of which he avers that the land business had all been properly conducted to the highest benefit of the state He can now make a supplementary explanation based on Chadwick s statement that when persons came before the board with promises to pay such promises were regarded as equivalent to cash and that even the Walker promise on which receipt was given was regarded as a payment Where was Grover when the order was made under which such things were done Again Grover in his speech declares that no member of the board was interested directly or indirectly in land transactions But the committee succeeded in getting it out of Cann though it was obtaining a confession by torture that members of the board and Gilfry also were interested in certain filings In his explanation in the senate Grover took the high ground that everything had been conducted by the board for the highest good of the state Those who have read the testimony of Chadwick and Cann are now prepared to estimate Grover s declaration at its true worth A more scandalous administration would be impossible

*MURDER AND THE LAW*

The Law s Vengeance is the caption of an article in the *New Northwest* which deprecates the decree of death against Johnson and Brown Revenge before such an awful spectacle it says must soften into pity and justice in whose sacred name the law commits with deliberation a crime which the persons under sentence committed inadvertently, stands appalled at the deed If any one harbors a feeling of revenge it should indeed, soften into pity before so awful a spectacle, but the community is not harboring a spirit of revenge and in enforcing the decree of the law is not actuated by such motive. Society is simply protecting itself and this it has a right to do But the belief is expressed that the ends of justice would be more fully met by giving to such a life-time of penal servitude" In the first place it is no more a crime on the part of the law to hang these men than to give them a life time of penal servitude—it is as much the right of the state to do the one as the other and in either case it finds its sole justification in its right to do what it thinks best for its own safety and well being, And in the next place there is no probability whatever that the criminals would be kept at penal servitude during the whole remainder of their lives Experience abundantly proves that in nine cases out of ten such sentence is not carried out Men like these care not for such penalties They have been in the penitentiary before Having no moral sensibility they are not affected by disgrace, and deprivation of liberty is not such punishment as will deter them and their kind from crime If the penitentiary had any real terrors for men of this class having been there once or twice already they would not commit crime again But the death penalty is the only thing they really fear, and is the only thing that will restrain men of their natures Every one must indeed feel pity for persons in their condition, but not because the deed for which they suffer was done inadvertently The proceeding was one of deliberation throughout They entered on the robbery with deliberate purpose they struck down their victim with deliberate purpose and carried off his goods with deliberate purpose and being pursued they fired the fatal shot with deliberate purpose Neither the robbery nor the shooting was unintentional Should they go to the penitentiary they could not make reparation for their wrong by contributing their labor to the common benefit, but would be kept as all other criminals are at an expense to the state far exceeding any profit to be derived from their labor, and in a comparatively short time would be released or make their escape But above all should the penalty be commuted the punishment they would receive would convey no lesson to the reprobate class who laugh at prisons and fear only the gallows

*A PRACTICABLE THING*

Now that active preparations are making to extend the Northern Pacific railroad west from its present terminus at the crossing of the Missouri river, it should be easy to convince the management of the company that it is quite practicable to begin also on the Pacific slope We have information that it is within expectation of the company to extend the road toward the west a distance of nearly six hundred miles from Bismarck If work on the western end were undertaken with the energy and resources which it seems entirely practicable to bring to bear on the enterprise the road might be put through from either end to a point of junction within five years That it is possible to find resources to build from the mouth of Snake river toward the east is demonstrated from the number of applications filed already for the company s lands Up to this time there have been 2 367 separate applications for lands in that locality covering 35 720 acres Sold at $2 50 an acre the amount would be nearly one million dollars But many tracts would bring more Since so many applications have been filed already it is apparent that if construction of the road should begin the number would at once be vastly increased and the company could realize within a short time money enough from lands alone to build a large section of the road This is not founded on conjecture It is a positive demonstration Of course government lands in that locality have been taken at a still more rapid rate indicating that there would be a fair business for the road from the moment of completion The total amount of government lands taken in the eastern part of Washington alone during the ten years past is 1 440 70 acres and it is almost needless to say that applications are constantly increasing

The Democratic family fight in congress is attracting great attention among politicians The New York *Herald's* Washington correspondence reviewing the controversy says the real cause of it is not the war claims of the south as might be supposed It arises in fact out of the urgent and irrepressible desire in the south for large appropriations for internal improvements and subsidies Southern Democrats imagine that their section of the country is exceptionally poor and they would like it to be made prosperous by a large shower of government money They see that they get no sympathy in this matter from northern Democrats who have very persistently and effectively kept guard over the treasury and have resisted the persuasion and threats of southern men and in General Bragg s case they are losing their temper And the action taken that the southern Democrats are in a bad way and that there is great alarm about it in the Democratic camp

The New York *Herald* utters a caution worth heeding when it says that any party which hereafter attempts to talk or act on financial subjects in a partizing way and with a specialty of taking special care of the farmers or laborers or of what demagogues call the toiling poor will suffer at the polls for its miserable underestimate of the common sense and self respect of the American people An affected tenderness for unworthy ends to the assumed low social or pecuniary class of particular classes is a British trick and a device of political mystery which cannot prosper out of the cold shadow of an organized aristocracy

The man who can certify in writing and then swear he didn t know otherwise as Jones the expert measuring worm has done—The Oregonian of misrepresenting Cann s testimony to his (Jones) injury and winds up by saying that if Cann is as badly muddled in the other parts of his evidence as he is in publishing our name in this connection his statements are of but little value so far as facts are concerned And yet Cann s statements are doubtless of quite as much value as those of this self convinced expert who certified that he had measured the printing and then was forced to admit on oath that he hadn t measured a line of it In fact Cann is still a good deal ahead

In response to a letter from Salem published yesterday signed "Inquirer" we are shown by Mr Watkinds a receipt from his successor Mr Burch covering the account with Walter Jackson for $450 10 for convict labor Jackson claimed that there ought to be a reduction of this amount which Watkinds declined to allow and when the latter went out of office the account was receipted for by Burch as above stated In what manner it was paid or settled Mr Watkinds does not profess to know

The New York *Sun*, an independent Democratic paper, in a leading article a column in length, denounces the Chinese immigration bill as ridiculous, ineffective unconstitutional It says In their indecent haste to secure the hoodlum vote the Democrats of the house used the gag rule and shut off debate that might have exposed the ridiculous unjust fraudulent and foolish character of the bill

Gen Grant in a recent letter to an officer of the army refers to the efforts making in congress to pass the new army bill, and says "I m sorry for you poor fellows, who are stirred up every year Our army never has any peace except in war

At Pittsburg a Tilden Democratic club has been organized with a view to 1880

## A PORTER'S PLUNDERINGS

A WHOLESALE STEAL OF PILLS AND OPIUM—THE [illegible] OFFICER [illegible] ARRESTED AT ASTORIA

On Monday last C M McCrarey employed for the last four months in the capacity of porter at the wholesale drug establishment of Hodge Davis & Co gave notice to his employers that he intended to leave On Tuesday morning he left for Astoria Previous to his departure he left instructions with the gentleman at whose place he was residing, to have a trunk and large box which he allowed to remain at the house forwarded to him at San Francisco or Astoria under a fictitious name. Though leaving this amount of baggage behind he took with him a large Saratoga trunk and for a man in his capacity of life and never known to be an extravagant dresser his sudden accumulations caused some suspicion Shortly after his departure the firm found themselves very unexpectedly out of a certain line of drugs and knowing that this had not been legitimately disposed of quietly commenced an investigation that has culminated in the arrest of the thief The circumstance of McCrarey leaving the forwarding of the box and trunk came to the knowledge of one of the members of the firm his late lodging house was visited the box broken up and its contents verified their suspicions About 80 pounds of opium and an assortment of valuable pills were found in the box. McCrarey always wore a heavy overcoat and it is presumed that previous to his leaving the store at nights he would fill the pockets of this garment with his plunderings and going home secrete them in his room Steps were immediately taken to apprehend the fugitive and Chief Besser telegraphed a full description of McCrarey to Chief Barry at Astoria Last evening information was received that the man had been arrested and this morning Officer H M Hudson left for the purpose of bringing the prisoner back to this city It is supposed that McCrarey also carried considerable of his plunder with him in the Saratoga trunk and until this is ascertained the extent of the robbery cannot be estimated The goods already recovered are at wholesale prices, valued at over $1,400

### Leaves from the Diary of this Great Healer

TWO MORE HELPLESS CHRONIC CASES CURED IN ONE FAMILY HUSBAND AND WIFE—TWO MORE FINGER BOARDS ERECTED TO POINT THE SUFFERING THOUSANDS OF THIS COAST TO A GENUINE HEALER, WHOSE CURES ARE ALWAYS PERMANENT, AND WHO NEVER FAILS TO CURE EVERY CURABLE DISEASE OF WHATEVER NAME OR NATURE

The following cases were treated over 8 months ago and both were complicated cases of Rheumatism and Paralysis, and were beyond the reach of medicine, more especially so, as both were old and the vital forces very much depleted The permanent cure of these two sufferers in *one short week's* treatment is *most respectfully dedicated* to the *thousands of hopeless sufferers* on this coast hoping that they may go and do likewise Permanent office southeast corner of Front and Washington streets, Portland, Oregon

*Dr C M Wood* I wish to make the following statement I had suffered great pain in my leg from inflammation for four years and therefore could not rest In this condition I received eight treatments from Dr C M Wood, magnetic physician of Portland and up to the present time I feel well and can do my work, which before treatment I was not able to do

MY POOR DARLING WIFE is suffering with another of those terrible *bilious headaches* What shall I get to relieve her? Oh yes! The *Oregon Blood Purifier* cured Mrs C, and I must go down to Pfunder's and get a bottle immediately

## WAR OF FACTIONS.

The following correspondence between the common council and the police commissioners explains itself [illegible] the matter which [illegible] been settled some time ago by [illegible] the [illegible] foregoing their personal feelings on the subject We publish the correspondence that the public may more readily see who is right or wrong.

[illegible]

Your committee [illegible] and public property as directed by resolution of January 15th [illegible] have requested the board of police commissioners in writing, to commission Mr C P Ellwanger as a [illegible] in order that [illegible] prisoners while working [illegible] we herewith enclose the answer [illegible]

Committee on [illegible] and Public Property

LETTER FROM THE COMMISSIONERS

OFFICE OF POLICE COMMISSIONERS
Portland Or January [illegible] 1879
[illegible]

GENTLEMEN —Your communication [illegible] of the 30th inst requesting the board to commission Mr C P Ellwanger special police officer in order that he may act as a guard over prisoners while engaged in cleaning streets in accordance with the resolution of the common council is received and duly considered

Section [illegible] of the city charter provides that the chief of police shall file a bond and take and subscribe to an oath that he will faithfully perform his duties which bond has been duly approved and filed

Among other duties section [illegible] of ordinance No 92 provides that the city prisoners must as therein provided under the direction of the chief of police whose *duty* it shall be to see that prisoners are guarded to prevent escape, etc

While the board earnestly desire that harmony shall exist between the board and the common council and that they should both work in unison for the public good and while we endeavor to do all things pertaining to police affairs in such manner as to please as well as to be just we sincerely regret that in justice to the chief of police and his bondsmen it is beyond our sworn duty to grant your request to commission Mr Ellwanger a special policeman, who was removed from the police force for cause

Should the board appoint any person applying and well recommended as policeman the common council would refuse (and very justly too) to provide for paying them

So it remains for the common council to appropriate the means to pay a policeman to act as a guard or to nominate some person who has not been removed from the force for any cause and whom the chief of police could trust and we will cheerfully commission such person, or we will commission a suitable person from the many applicants whose petitions are on file in this office, who will prove a faithful servant and trusty guard and one to whom the chief of police will without hesitation consign the care and custody of the prisoners

We remain gentlemen yours very respectfully,

WM CONNELL
PETER TAYLOR

LETTER FROM MR RILEY

The following letter was received from Police Commissioner R R Riley

*To the Honorable the Common Council of the City of Portland*

GENTLEMEN —In reply to your communication requesting the board of police commissioners to commission C P Ellwanger as a special officer for the purpose of working prisoners confined in the city jail I would state that I am in favor of complying with your request but my associates decline to issue a commission to Mr Ellwanger, but are willing (I understand) to commission another party whom they may select.

Very respectfully etc,

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use for indigestion biliousness etc. as a tonic anti malarial etc it is unequaled while in chronic complaints it gives relief when all other remedies fail and is frankly acknowledged to be the *only* cure for many chronic complaints of a complicated nature.

CATARRH,

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial and surprises many who do not understand the nature of this terrible disease which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism etc All who use it, leading druggists and physicians gladly attest its great sterling worth

Sold in its truly vegetable form in packets at $1 each packet makes a quart of rich balsam of which the dose is two spoonsful three times daily making its cost much less than other medicines. Make like tea or put in wine, etc pleasant to take when nicely sweetened It is nature's life bearing balsam—its success assured in advance in all cases

Ask for it and take no drugs or disguised mercury Six pkts $5 00

Turning to matters more directly relating to local interests we remark a moderate degree of activity only in financial affairs with a rather limited demand for funds at the several city banks which is freely met at the rates and on the terms which have prevailed for several weeks past.

The situation of trade matters is one of very great quiet and transactions are duller to day than they have been before during the week under review Interior merchants are buying only in small parcels until transportation can be more cheaply and more readily had Winter stocks of imported merchandise are reduced to moderate limits merchants having learned the wants of the trade make arrangements now to fully supply it and no more so that, compared with former years the quantity of goods carried over from the season which they were intended to supply is light

In domestic products no changes of importance have occurred since our last report Holders of wheat are very decided in expression of their belief that before any considerable increase in the volume of transactions can take place there must be some advance allowed by buyers The quarantine of several Russian ports is reported by telegraph and some holders of wheat on this coast predicate hopes of a material advance on that account.

From the annual review of the commerce of Oregon in the *Commercial Reporter* we learn that the movement of treasure from this port per Wells Fargo & Co during the year 1878 was $3,389,947 a decrease of about $400,000 from that of 1877 but an increase over any other preceding year of nearly one million dollars From the same source we learn that the receipts of wheat during the year were 1,378,?11 sacks of about 130 lbs each of flour 1,210,317 qr sacks of oats, 124,791 sks These receipts were by rail or steamer, and of course can not be taken as the total which found their way to this market.

# DR. PAUL N. BRENAN.

## His Wonderful Success

IN THE TREATMENT OF ALL

## Chronic and Acute Diseases.

## He has astonished the People of this Coast by his skillful Operations.

**HE HAS TAUGHT IN HIS** public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness for it is well understood that without health there can be no happiness

**DR BRENAN** has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once, and permanently cures the case if he is applied to in time

**THE DOCTOR HAS GIVEN SPECIAL LECTURES** to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

**THE DOCTOR HAS THIS ADVANTAGE** over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part to his great professional success.

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

**DR BRENAN** will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable

**THE DOCTOR** has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

**CAUTION**

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them They are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR PAUL N BRENAN the *Medical Lecturer* and read his sign on his door
